

# Jeep Renegade

The Renegade is a new small SUV from Jeep, built alongside the Fiat 500X at Melfi, and featuring ADAS (Advanced Driver Assist Systems) including AEB (Autonomous Emergency Braking).

## Structure

The Renegade is built alongside the Fiat 500X and as such the platform will include a mix of AHSS (Advanced High Strength Steel) and UHSS (Ultra High Strength Steel) for the occupant cell, with Press Hardened Steel supporting some key points. The remaining structure such as the front and rear chassis legs will be of High Strength Steel.

## Technology

Forward Collision Mitigation Plus is a radar and camera (fitted to the windscreen) based AEB system.

The camera is also utilised for the Lanesense™ Lane Keep Assistance System that alerts the driver visually if it detects the vehicle drifting out of lane, and applies a small steering input to correct this.

The ParkView rear camera system is featured, providing dynamic guidance lines to aid reversing and parking.

## Trim levels : Sport, Longitude, Limited, Opening Edition, Trailhawk

All models include 6 SRS airbags and Electronic Stability Control, Traction Control and Rollover Mitigation.

Sport models feature air conditioning, front and rear electric windows, 16" alloy wheels, DAB radio with 5" touchscreen and electric door mirrors.

Longitude upgrades the specification to 17" alloy wheels, black roof rails, front fog lamps, body colour door mirror covers and door handles, and satellite navigation.

Limited models feature Forward Collision Mitigation Plus (AEB), a Lane Keep Assistance system, 18" alloy wheels, dual-zone climate control, privacy glass, rear parking sensors and a 6.5" touchscreen system. It also features silver roof rails, door mirror covers and grille.

Opening Edition feature a unique style of 18" alloy wheel and is available in Alpine White or Omaha Orange, both with a black painted roof. They also feature electric folding door mirrors, Forward Collision Mitigation Plus (AEB) and leather interior.

Trailhawk models feature 17" alloy wheels, Forward Collision Mitigation Plus (AEB), fuel tank and front suspension skid shields, rear parking sensors, privacy glass and leather interior with the Trailhawk emblem.
