### OTHER CAT.:

REPAIR  
SAFETY  
GENERAL

AEB is featured on SE and SE-L as part of Front Assist with City Emergency Braking. This system uses a radar mounted centrally in the lower front bumper.

The new Fabia has a wider track than its predecessor, with a slight increase of 5 mm to the wheelbase (2470 mm), but overall length is decreased by 8 mm to 3992 mm, with a reduction in roof height to 1467 mm. The vehicle is built on a revised PQ26 platform, incorporating some MQB components. There is a much higher percentage of Press-hardened steels and many materials have been optimised to keep the body weight to a minimum.

The Fabia is the first VW to feature MirrorLink™ technology (therefore do not have CD players) to allow the driver to access their smartphone applications through the infotainment screen by USB connection.

AEB is featured on SE and SE-L as part of Front Assist with City Emergency Braking.

The ESC (Electronic Stability Control) includes Multi-Collision Braking to apply brakes after an accident to prevent a secondary collision.

6 SRS airbags are standard on European specification models.

## Skoda Fabia hatch and estate

### Trim levels : S, SE, SE-L

S features 15" 'Dentro' steel wheels, heated electric door mirrors, electric front windows and remote central door locking.

SE models feature 15" 'Mato' alloy wheels, chrome external finishers, manual air conditioning, 'Bolero' radio with MirrorLink™ and Front Assist.

SE-L feature 16" alloy wheels, front fog lamps, LED daytime running lights, cruise control, climate control and keyless engine starting.

A panoramic sunroof is available for SE and SE-L models £600.

Rear parking sensors are available (£290) and front and rear sensors (£450).
