GENERAL

## VW Scirocco (2014 facelift)

As this is a facelift, the Scirocco is not yet on the MQB platform but continues on the Golf V (PQ35) structure. This will include hot formed B post reinforcement and roof side member reinforcement and DP1000 for the sill reinforcement. The remainder of the structure features much HSS (High Strength Steels), with a considerable amount of laser joining.

Dimensions remain at 4356mm length and 1406mm height.

### Technology :

The radar based Blind Spot Monitor does not appear to be available for UK models.

Dynamic Chassis Control (standard on R models, £810 option on others) receives data from 3 body sensors and 3 wheel sensors to enable continuous optimisation of the suspension damping. The system features selectable 'Sport' and 'Comfort' modes.

### Trim levels : Scirocco, GT, R-Line, R

All models feature SRS airbags: driver, front passenger, seat/side and curtain; front seat safety belts feature pre-tensioners. Electronic Stability Control is standard on all. Scirocco entry level models feature 17" 'Long Beach' alloy wheels, LED rear lamps and rear licence plate lamps, air conditioning, auto headlamps and black grained lower door protector mouldings. Bumpers and door mirrors are body coloured. The interior is of 'Scirocco' cloth with a grey headlining.

GT models receive 18" 'Interlagos' alloy wheels with self-sealing tyres, front fog lamps, front and rear parking sensors and the rear glazing is tinted (65% light absorption). The interior features 'GT' cloth with alcantara seat sides and a black roof lining. For comfort the GT has climate control.

R-Line models have the R-line front and rear bumpers, grille and side sill mouldings. 19" 'Talladega' alloy wheels are standard and the interior is finished in 'Vienna' leather with heated front seats. Interior finisher trims are in a carbon effect.

R models can be recognised by 19" 'Cadiz' alloy wheels and Xenon headlamps, with LED daytime run lights in place of front fog lamps. The front and rear bumpers, grille and side sill mouldings are unique to R models. The internal finisher trims are in a gloss Black, with the door mirrors finished in dark chrome. 'Recaro' part leather sport seats are available for the R (£1665). The R models have the Dynamic Chassis Control active suspension system.

Xenon headlamps are available for non R models at a cost of £1010 (including VAT).

The Park Assist system is available with park sensors for Scirocco models for £535 and for £150 for GT and R-line models which already have sensors.

A panoramic glass sunroof is available on all trim levels (£740).

## Powertrains :

The range now includes 4 TSi and 2 TDi engines, all of which are in the Euro 6 category.

1.4 TSi (92kw/125PS) turbo-charged petrol - 200Nm of torque, with 6-speed manual transmission only.

All others can be specified with a 6-speed manual transmission or a 6-speed DSG automatic transmission.

2.0 TDi (110kw/150PS) turbo-diesel, 340Nm

2.0 TDi (135kw/184PS) turbo-diesel, 380Nm

2.0 TSi (132kw/180PS) turbo-charged petrol, 280Nm

All those up to 220PS are fitted with a Stop/Start system and a brake energy recovery system.

2.0 TSi (162kw/220PS) turbo-charged petrol, 350Nm

2.0 TSi (206kw/280PS) turbo-charged petrol, 350Nm
